How to remove adobe extension in chrome

Modified on: Fri, May 26, 2023 at 11:42 AM

Here are the instructions to turnoff the Adobe Acrobat plug-in. IF you are unable to see the images. The instructions are also attached.

ERROR Running Administration Record in Google Chrome

Symptom / Error -

Issue is with Adobe Acrobat / Chrome Plug in
Resolution –

1. Check to assure pop-up blockers are turned off.
2. Have the user open Adobe Acrobat by opening from the Programs Menu
3. In Acrobat
    a. Click on Edit
    b. Select Preferences from the Menu
   c. On the List of Categories select Internet

   a. On the following window – uncheck "Display In Read Mode be Default and click OK. Then recheck.

a. Test to see if the user can run the Administration Record.

b. If that does not work then:

    i. In Chrome

    ii. Go to Settings

    iii. On the left side choose Extensions

    iv. Disable the extension by clicking on the circle to turn it from Blue to Gray.

1. Test to see if the user can run the Administration Report.

2. Test to assure that another PDF Report in PCC can be run. Ex: Orders Listing Report.
